

JOE GORMAN

MAINTENANCE OPERATIVE

How would you describe DPI in three words?

- High quality
- Friendly
- Engaging

If you weren't a maintenance operative, what would you be?

I would either be a martial arts teacher or a professional cyclist. I have been doing martial arts for nearly 30 years now, including Kungfu, Kick Boxing and MMA.

What do you enjoy about your role?

I very much enjoy seeing a project through to completion. It can be of any task but I have to be comfortable that it has been completed as perfect as possible, as I love a challenge! The variety of this role and how each day is different is something that I like.

If you could give one piece of advice to a new starter, what would it be?

The one piece of advise I would give to a new starter is to try and help others a much as you can. Being a team player is really appreciated here.

Tell us something about yourself that we wouldn't know?

That I complete at national cycling events for a racing team. Endurance cycling (24 hours continuous racing) is a particular favourite of mine.

↑ Three Likes

- Cycling
- Martial Arts
- Food

↓ Three Dislikes

- Not being busy
- Inconsiderate drivers
- Negative people
